ELSEVIER

European Journal of Operational Research 145 (2003) 713–715

EUROPEAN JOURNAL OF OPERATIONAL RESEARCH

www.elsevier.com/locate/dsw

Contents Volume 145

1 Facility location with increasing production costs
J. Harkness and C. ReVelle

14 Makespan estimation in batch process industries: A comparison between regression analysis and neural networks
W.H.M. Raaymakers and A.J.M.M. Weijters

31 A polynomial algorithm for 2-degree cyclic robot scheduling
A. Che, C. Chu and E. Levner

45 Minimizing the weighted number of tardy jobs on a single machine
R. M'Hallah and R.L. Bulfin

57 A knowledge-based evolutionary strategy for scheduling problems with bottlenecks
R. Varela, C.R. Vela, J. Puente and A. Gomez

72 Solving the shortest route cut and fill problem using simulated annealing
D. Henderson, D.E. Vaughan, S.H. Jacobson, R.R. Wakefield and E.C. Sewell

85 Decision-making with the AHP: Why is the principal eigenvector necessary
T.L. Saaty

92 On multiplicative priority rating methods for the AHP
A. Stam and A.P.D. Silva

109 Risk-value models: Restrictions and applications
D.W. Mitchell and G.M. Gelles

121 A multivariate methodology to uncover regional disparities: A contribution to improve European Union and governmental decisions
J.O. Soares, M.M.L. Marquês and C.M.F. Monteiro

136 Managing electricity market price risk
I. Vehviläinen and J. Keppo

148 Methodological contrasts in costing greenhouse gas abatement policies: Optimization and simulation modeling of micro-economic effects in Canada
M. Jaccard, R. Loulou, A. Kanudia, J. Nyboer, A. Bailie and M. Labriet

165 An optimal timing model of water reallocation and reservoir construction
F. Firoozi and J. Merrifield

175 Grey input–output analysis and its application for environmental cost allocation
C.C. Wu and N.B. Chang

202 A framework for the constitution of modelling processes: A proposition
D.M. Eriksson

216 The axiomatic basis of risk–value models
U. Schmidt

221 The valuation of European options in uncertain environment
Y. Yoshida

PII: S0377-2217(02)00748-8

231 Editorial: Decision support systems: Current research
R.A. Ribeiro, A.J. Rodrigues and P. Zaraté
232 Towards using computational methods for real-time negotiations in electronic commerce
G.P. Papamichail and D.P. Papamichail
239 Data mining for decision support on customer insolvency in telecommunications business
S. Daskalaki, I. Kopanas, M. Goudara and N. Avouris
256 Reinforcing decision aid by capitalizing on company's knowledge: Future prospects
M. Grundstein, C. Rosenthal-Sabroux and A. Pachulski
273 Software evaluation problem situations
I. Stamelos and A. Tsoukiàs
287 The AGAP system: A GDSS for project analysis and evaluation
J.P. Costa, P. Melo, P. Godinho and L.C. Dias
304 A fuzzy multiple objective decision support model for energy-economy planning
A.R. Borges and C.H. Antunes
317 Fuzzy MADM: An outranking method
T. Aouam, S.I. Chang and E.S. Lee
329 Generalized mixture operators using weighting functions: A comparative study with WA and OWA
R.A. Ribeiro and R.A. Marques Pereira
343 SINGRAR—A fuzzy distributed expert system to assist command and control activities in naval environment
M.J. Simões-Marques and F.J. Pires
363 Simulation of ECB decisions and forecast of short term Euro rate with an adaptive fuzzy expert system
L. Rizzi, F. Bazzana, N. Kasabov, M. Fedrizzi and L. Erzegovesi
382 Consistency stability intervals for a judgement in AHP decision support systems
J. Aguarón, M.T. Escobar and J.M. Moreno-Jiménez
394 A new structural mechanism for reducibility of stochastic PERT networks
S.M.T. Fatemi Ghomi and M. Rabbani
403 Separate and carousel type allocations of workers in a U-shaped production line
K. Nakade and K. Ohno
425 A nonparametric predictive method for queues
F.P.A. Coolen and P. Coolen-Schrijner
443 NHPP software reliability and cost models with testing coverage
H. Pham and X. Zhang
455 Small response surface designs for metamodel estimation
İ. Batmaz and S. Tunali
471 A piecewise linear programming approach to the two-group discriminant problem – an adaptation to Fisher's linear discriminant function model
K.F. Lam and J.W. Moy
483 Center problems with pos/neg weights on trees
R.E. Burkard and H. Dollani
496 Testing the efficiency of two pairwise comparison methods in discrete multiple criteria problems
R. Lahdelma, P. Salminen and M. Kuula
509 Multiobjective solution of the uncapacitated plant location problem
E. Fernández and J. Puerto
530 Application of a mixed simulated annealing-genetic algorithm heuristic for the two-dimensional orthogonal packing problem
T.W. Leung, C.K. Chan and M.D. Troutt

543 Using genetic algorithms for single-machine bicriteria scheduling problems
M. Köksalan and A. Burak Keha
557 Differential approximation results for the traveling salesman problem with distances 1 and 2
J. Monnot, V.T. Paschos and S. Toulouse
569 Estimating customer service in a two-location continuous review inventory model with emergency transshipments
K. Xu, P.T. Evers and M.C. Fu
585 Stock selection heuristics for interdependent items
K. Gnanendran, J.K. Ho and R.P. Sundarraj
606 An enumerative heuristic and reduction methods for the assembly line balancing problem
K. Fleszar and K.S. Hindi
621 Reducing the cost of defects in multistage production systems: A budget allocation perspective
G.C. Hadjinicola and A.C. Soteriou
635 The finite multiple lot sizing problem with interrupted geometric yield and holding costs
S.-M. Guu and A.X. Zhang
645 Towards reconciling outranking and value measurement practice
T.J. Stewart and F.B. Losa
660 Effects of multiple arbitrators on final-offer arbitration settlements
W.J. Hurley
665 An interactive fuzzy satisficing method for multiobjective stochastic linear programming problems through an expectation model
M. Sakawa, K. Kato and I. Nishizaki
673 Relaxation of the Condorcet and Simpson conditions in voting location
C.M. Campos Rodríguez and J.A. Moreno Pérez
684 Raid games across a set with cyclic order
N. Zoroa, P. Zoroa and M. José Fernández-Sáez
693 An investigation of changes in attitude over time of GDSS groups under unanimity and majority decision rules
J.R. Marsden and S. Mathiyalakan
713 Contents Volume 145
